WORK EXPERIENCE

AI & Full Stack Developer Intern - *Gaddr, Stockholm, Sweden*
09/19/2025 – (Present)
- Built and maintained full-stack web application features and supported AI/ML model design, training, and integration

- Collaborated with cross-functional teams, solved technical challenges, and ensured coding, documentation, and security best practices

- Provided progress updates, assisted with project handovers, and engaged in continuous learning and process improvements

Software Developer - *DutchView, Deventer, Netherlands*
Part-time
12/06/2021 – 05/27/2022
- Maintained and enhanced legacy software, developed new features, and resolved bugs using relevant languages, frameworks, and tools

- Participated in architectural discussions, applied design patterns, and collaborated with QA teams to test, debug, and optimize software

---

PROJECTS

Workplace for the Future – *Saxion University of Applied Sciences, Deventer, Netherlands*

Group Work
6weeks
- Developed front-end (UI/UX) and back-end (server/database) features in Java, writing clean and maintainable code for components and features

- Ensured Scrum best practices while writing unit, integration, and E2E tests.

Virtual Machine and Docker – *University of Europe of Applied Science, Potsdam, Germany.*

Group Work
4weeks

- Developed Java and Python programs, including Flask web apps with HTML templates

- Built and ran applications in Docker containers; managed system setup, users, and software installation via CLI and Synaptic.

DevSync - Developer Collaboration Platform – *Private, Berlin, Germany*

Individual Work
2weeks but till ongoing

- Developed full-stack application components with JWT-based user authentication

- Maintained testing environments, tracked, and documented bugs

Safe Move – *Private, Den Haag, Netherlands*

Individual Work
2weeks
